MEMORANDUM FOR: Director of Information Technology

FROM: [REDACTED]  
Director of Communications

SUBJECT: Transfer of Financial Management for  
Domestic Commercial Communications Services [REDACTED]

1. This memorandum requests your concurrence in transferring the financial management and accounting for domestic commercial circuit and telephone services from the Office of Communications (OC) to the Office of Information Technology (OIT). [REDACTED]

2. As a matter of expediency, financial accounting for some domestic leased line activity remained in OC when OIT initially assumed responsibility for provision of these services. A mechanism evolved wherein monthly charges are received, authenticated, and processed in OIT, then passed to my leased services manager for obligation against the Domestic Leased Line FAN. At this juncture, we believe that this procedure is duplicative and inefficient. Moreover, it may serve to deprive OIT of overall program management for domestic leased circuit and telephone services. [REDACTED]
